

Fully automatic coffee machine Finessa Milk

The most compact and energy-efficient fully automatic coffee machine with steeam nozzle

Espresso, double espresso, black coffee, cappuccino and flat white, as well as café americano – the TURMIX Finessa Milk satisfy every desire of coffee lover. But it's not just the quality of the brewed coffee that inspires, the machine is also the most compact (only 18 cm wide) and the most energy efficient fully automatic coffee machine with a milk solution. The simple and intuitive handling, the attractive cup lighting and 3 different operating modes round off the machine.
